The meeting of the Board of Supervisors for the **Cross Creek Community Development District** will be held **Tuesday, October 21, 2025, at 10:00 a.m. at the 4000 Creekside Park Dr, Parrish, Florida 34219**. The following is the proposed agenda for this meeting.

Call in number: 1-844-621-3956

Passcode: 2538 286 6774

Join from the meeting link

<https://pfmcdd.webex.com/meet/ripollv>

NOTE: If you are calling into the meeting by phone or Webex, please MUTE your line!

BOARD OF SUPERVISORS' MEETING AGENDA

Organizational Matters

- **Call to Order**
- **Roll Call**
- **Public Comment Period** (*where members of the public desiring to speak on a specific agenda item may address the Board, limited to 3 minutes per person*)

Administrative Matter

1. Review and Consideration of September 16, 2025, Board of Supervisors Meeting Minutes

Old Business Matters

2. Pool Slide Update
3. Update of Dog Park
4. Discussion of New Security System Vendor
5. Discussion of Lighting Proposal – Fonroche Lighting America
6. Discussion of Amenity Center Projects
7. Discussion regarding Tree Trimming and Removal Memorandum
8. Discussion of Board Members Projected Project Expenses

New Business Matters

9. Water Fountains (*provided under separate cover*)
10. Review and Consideration of Playground Proposals
11. Discussion of Possible Dog Park
12. Ratification of FY 26 Egis Insurance Package
13. Ratification of Payment Authorization Nos. 311 – 315
14. Review of District Financial Statements(*provided under separate cover*)

Staff Reports

- District Counsel
- District Engineer
- District Manager

Supervisor Requests & Comments

Adjournment

CROSS CREEK COMMUNITY DEVELOPMENT DISTRICT

Review and Consideration of the September 16,
2025, Board of Supervisors Meeting Minutes

MINUTES OF MEETING

CROSS CREEK COMMUNITY DEVELOPMENT DISTRICT BOARD OF SUPERVISORS' MEETING

Tuesday, September 16, 2025, at 10:00 a.m.

4000 Creekside Park Dr.

Parrish, FL, 34219

Board Members Present were:

Lianna Litwin
Bruce Stolarz
John Free
Mike DiPhilippo

Chairperson
Vice Chairperson
Assistant Secretary
Assistant Secretary

Also present were:

Venessa Ripoll
Gazmin Kerr
Jennifer Glasgow
Kiara Cuesta
Dan Lewis
Jeff Sprouse
Ryan Eberly

District Manager - PFM
Assistant District Manager – PFM – Via phone
Accountant – PFM – Via phone
Accountant – PFM – Via phone
District Counsel – Persson, Cohen & Mooney, P.A.
District Engineer – Alliant Engineering
LMP

Various Residents in audience and via phone

FIRST ORDER OF BUSINESS

Organizational Matters

Call to Order and Roll Call

Ms. Ripoll called the meeting to order at 10:01 a.m. and confirmed quorum.

Public Comment Period

A resident had a comment regarding the Golf Course Road work. It was noted there was a hose going into a CDD pond. Ms. Litwin noted this has been addressed, but the County needs to be called when it is taking place.

There was brief discussion regarding future widening of Golf Course Road.

There were no further public comments at this time.

SECOND ORDER OF BUSINESS

Administrative Matters

**Review and Consideration of the
August 19, 2025, Board of
Supervisors Meeting Minutes**

The Board reviewed the minutes.

Ms. Ripoll noted the final minutes will be available on the District's website.

On MOTION by Mr. Stolarz, seconded by Mr. Free, with all in favor, the Board accepted the minutes of the August 19, 2025, Board of Supervisors' meeting.

THIRD ORDER OF BUSINESS

Business Matters

Pool Slide Update

Ms. Ripoll noted that all contracts have been executed and reviewed by District Counsel. The vendor has been given access to the property and will be working on the slide piece by piece. As of now, the pool will not need to close.

Ms. Ripoll will work with Mr. Stolarz on obtaining a key for the vendor once needed.

This item will be kept on the agenda.

Discussion of Dog Park

Mr. Lewis gave an update on the Dog Park and noted District staff is awaiting a final answer from Medallion Homes, as to whether the dog park will be turned over.

There was discussion regarding the CDD maintaining that area without owning it. It was recommended to back charge for maintenance and cancel all current vendors for that area. If the area is not maintained, this can be reported to the County.

A resident recommended putting up signage stating that the area is no longer maintained by the CDD. Mr. Stolarz noted the signage can be placed near the Dog Park in common ground.

District Counsel gave an overview of the process related to no longer maintaining the Dog Park.

There was brief discussion regarding working with Medallion Homes.

Ms. Ripoll recommended writing a letter to Medallion Homes notating all costs to maintain the Dog Park, a deadline for response, and giving proper notice that the CDD will no longer be maintaining it.

On MOTION by Mr. Free, seconded by Mr. DiPhilipppo with all in favor, the Board approved District Counsel to draft a letter to Medallion regarding the Dog Park maintenance and giving a 30 day response deadline.

Mr. Stolarz gave an overview of the Dog Park fence posts. He noted there were several wobbly areas. This will be tabled until the Dog Park has been transferred to the CDD.

This item will be kept on the agenda.

Irrigation System Cut-Off Status to Non-CC CDD Areas

Ms. Ripoll noted these areas have been completed and cut-off.

LMP confirmed all areas have been completed.

There was brief discussion regarding what areas should have been cut-off.

Discussion of New Security System Vendors

Ms. Ripoll noted she is working on acquiring new proposals. The District has run out of fobs at this time, but PFM is now handling all fob distribution. The fobs are \$25.00 each. She is going to work with HOA on obtaining the funds.

There was brief discussion regarding the fob distribution. It was noted there are two fobs allowed per household. Ms. Ripoll noted that District Management is going through training for the fob system.

This item will be kept on the agenda.

Discussion of Lighting Proposal – Fonroche Lighting America

Ms. Ripoll noted that Fonroche Lighting America provided updated proposals for the Board's review.

There was discussion regarding the lighting locations and types of lighting. Mr. Stolarz reviewed the proposed styles of lighting and noted the proposals include more modern lighting than the previous lighting presented.

The Board reviewed the proposed design and financing options. It was noted the basketball court lighting would be for a future project.

There was brief discussion regarding the cost of shipping, installation, and storage. It was also noted the old poles will need to be removed. It was recommended to add the removal to the future project list.

Ms. Ripoll noted she will have the vendor come to the October meeting. It was requested to have a proposal for five lights with the modern lighting option and without.

Discussion of Splash Pad

Ms. Ripoll noted a proposal has been received for the Board's review.

The Board briefly discussed the Splash Pad safety and other improvement projects. It was noted this is a project for the future.

Ms. Ripoll noted that EGIS, the insurance carrier, will be doing site inspections.

This item will be kept on the agenda.

Discussion of Board Members Projected Project Expenses

There was brief discussion regarding the rock installation. Ms. Litwin noted the pool equipment area is not going to be done at this time due to flooding issues. Mr. Stolarz noted the pool company is supposed to be taking care of the issue.

There was also brief discussion regarding the dumpster area cleanup. Ms. Ripoll noted that will be taking place shortly.

Ms. Litwin requested proposals for the replacement of the playground swings on Rye Grass Loop. She also noted there is a dip near the sidewalk and there is flooding. Ms. Ripoll will bring proposals back for the Board's review.

Ms. Litwin noted issues with the water fountains at the playground and the basketball court. The County charges \$40.00 a month for the water, but neither of them works. It was noted the water fountains near the restrooms do not work either. Ms. Litwin recommended having them removed and having the meters turned off. It was also noted there is a water fountain at the Dog Park. Mr. Lewis stated it may be a statutory requirement to have the water fountains based on their locations. District Counsel will follow up. Ms. Ripoll will bring proposals for repair and removal back for the Board's review in October. Ms. Ripoll recommended asking the onsite maintenance person.

There was brief discussion regarding a resident's complaint and request for trees. Mr. Stolarz noted he requested LMP to put trees in that location. It was noted there previously were trees in that location, but they were removed due to hurricane damage. District Counsel gave an overview of the rules in regard to trees owned by the CDD. Ms. Ripoll noted that District Counsel has a memo in regard to this that can be posted on the website. The Board agreed to have this memo completed for the District by District Counsel.

There was discussion regarding the fencing around the dumpster area and the new trash pickup. It was noted the new trucks will not be able to fit in the fencing. Mr. Stolarz recommended waiting to see what takes place with the new pickup before changing anything. It was noted the cleaning service comes three times a week and they could put the trash in the requested location for ease of pickup.

Discussion of Amenity Center Projects

- **Power Wash**
- **Paint Interior and Exterior of Amenity Center**
- **Repair Amenity Center Kitchen**
- **Amenity Center Exterior Areas Rocks or Mulch Bare Areas**
- **Landscaping Interior and Exterior Areas**
- **Sidewalks Repairs Around the Amenity Center**
- **Basketball Court Repair**

Ms. Litwin reviewed the proposal from LMP for the mulch around the entire Amenity Center. Mr. Stolarz noted there may need to be curbing installed in some areas to create a barrier to the grates. There was brief discussion regarding having a concrete barrier versus a plastic barrier and the cost of mulching. It was noted that mulch can be painted. Mr. Eberly noted the proposed mulch is a bit more durable, but recommended installing it in October due to the weather.

Curbing and barriers will be kept on the list for future projects.

On MOTION by Mr. Stolarz, seconded by Ms. Litwin with all in favor, the Board approved the LMP Proposal for \$7,700.00 for Mulching the Bare Areas of the Amenity Center Exterior Areas, with installation in October.

This item will be updated and kept on the agenda.

Review and Consideration of Golf Course Entrance Landscaping

Ms. Ripoll reviewed the updated proposal from LMP, in the amount of \$51,710.66.

The Board reviewed the project.

This will be kept on the list for future projects.

Mr. Eberly gave an overview of Proposal #362307 for removal of dead trees. Mr. Stolarz requested an additional dead Palm to be removed. It was noted stump grinding is not needed.

On MOTION by Ms. Litwin, seconded by Mr. Stolarz, with all in favor, the Board approved the LMP Proposal for \$825.00 for dead tree removal and \$250.00 for dead Palm removal.

**Review and Consideration of
Aerator Quote and Monthly
Increase with Advanced Aquatics**

Ms. Ripoll reviewed the aerator quotes and noted there is a \$400.00 monthly increase. There is a recommendation to add aerators.

There was discussion regarding the ponds. Mr. Stolarz noted the pond across from the Dog Park has a lot of brush hanging over it and it smells. He recommended having LMP look at the overhang. Mr. Eberly gave an overview of the project and noted it would be a high cost.

A resident noted that land is a conservation area. There was brief discussion regarding the location. Ms. Litwin noted this can be determined via the County.

It was noted it is high algae season for the ponds right now and fertilizer causes issues in the ponds.

Ms. Ripoll recommended waiting on the aerators at this time. Mr. Stolarz recommended waiting until next year for the aerators.

There was brief discussion regarding the aerators and the increase in monthly fee.

Ms. Litwin noted the District has been through several pond vendors and they are not treated well by the residents.

It was noted Pond 5 has to have an electric aerator due to the size.

District Counsel will review the contract to confirm they are able to increase the monthly fee. An addendum for the fee increase will be drafted for the Board's review.

This will be kept on the list for future projects.

**Ratification of Payment
Authorization Nos. 307 – 310**

The Board reviewed the payment authorizations. Ms. Ripoll noted the Hoover Pumping Station authorization was for the annual fee and the other was for the filters.

There was also brief discussion regarding the LMP payment authorizations. It was noted these were for irrigation repairs.

On MOTION by Mr. Stolarz, seconded by Mr. Free with all in favor, the Board ratified Payment Authorization Nos. 307 – 310.
--

Review of Districts Financials

Ms. Ripoll stated the District Financials are through August 2025 and once approved will be posted on the District website.

The Board reviewed the financials.

On MOTION by Mr. Free, seconded by Mr. DiPhilippo with all in favor, the Board approved the District Financials.

FOURTH ORDER OF BUSINESS

Other Business

Staff Reports

District Counsel- No report.

District Engineer- No report.

District Manager-

- **Amenity Center Interior Rocks Status**
- **No Fishing Signs**

Ms. Ripoll noted the next Board meeting will take place on October 21, 2025.

There was brief discussion regarding the Amenity Center rock status. Ms. Litwin noted the area behind the wall was not previously approved. Ms. Ripoll will follow up and get a proposal if needed.

Ms. Ripoll noted the signs have been received and will be posted in the same locations as the current ones. There will be a few extra to have on hand if needed.

FIFTH ORDER OF BUSINESS

Supervisor Requests and Audience Comments

It was noted there is a blockage in the women's bathroom again. Mr. Stolarz will snake it out.

There were no Supervisor requests or audience comments at this time.

SIXTH ORDER OF BUSINESS

Adjournment

Ms. Ripoll requested a motion to adjourn the meeting.

On MOTION by Ms. Litwin, seconded by Mr. Free, with all in favor, the Board adjourned the September 16, 2025, Board of Supervisors' Meeting for Cross Creek Community Development District at 11:45 a.m.

The global leader in solar lighting

Fonroche Lighting America is proud to be part of Fonroche Lighting, the global leader in off-grid solar street lighting. The deep resources and broader scope of an established market leader lets us take solar lighting even further, from the State Treasury in Salem, Oregon to the West African Republic of Senegal. Over 150,000 Fonroche SmartLight systems have been deployed worldwide.

With five offices in the USA and installations across the country, Fonroche is never far away. Some solution providers enter the solar lighting market—then move on. We're a reliable partner that sticks around. You get the responsive support and smart answers that you need now—and the confidence that we'll be here for you far in the future. And we can take on projects of any size, from local to national. That's why so many municipalities, military and federal facilities, tribes, commercial properties, and developers trust us to deliver the full promise of solar lighting.

The **3** key benefits for your project

- OFF-GRID

100% solar, not connected to the utility grid. No outages.

365 nights of light a year – guaranteed.

- POWERFUL

Powerful illumination, on a par with grid-connected systems.

- COST-EFFICIENT

No maintenance for the first 10 years. Rapid installation. No operating costs.

Feasibility of your solar lighting project

To guarantee powerful, cost-effective off-grid lighting, Fonroche operates its own **design offices**.

We assess the feasibility of each project in four stages:

1. First, we define your **lighting requirements**.
2. Next, we analyze the last 10 years of **local weather data** to determine how much energy our PV panels will generate.
3. On this basis, we **calculate** what size and how many products we need to install.
4. Finally, our sales team draws up a **cost estimate**.

1 Project = 1 Study

✓1

10-Year Analysis of local weather data

We use the **PVsyst** software suite and **Meteonorm** historical time series irradiation data to calculate the real-world operating conditions — orientation and tilt angle of the panel, shadow, etc. — and external parameters, such as direct and diffuse irradiation, temperature and the solar calendar.

✓3

Sizing the project to your needs

We use a set of key criteria to optimally specify your project:

- Average battery charge level over the year
- Minimum charge level
- Comparative analysis of energy generated by the panel vs. energy used by the system
- Worst-case scenario (lowest irradiation, longest night)

✓4

Results

Based on our experience, we propose the **optimal solution** in terms of lighting **performance** and **cost effectiveness**.

Simulation of product(s) over a typical year

Our teams have developed a solar sizing software application, which we use to determine which products will best meet your needs. We then simulate how these products operate over a typical year, based on the average conditions for **the last decade**.

Autonomy of
365
nights of lighting /year

Analyzing your lighting project

Your Project location

Parrish, FL

USA

GPS COORDINATES

Latitude: 27.5877° N
Longitude: -82.4255° E

Your Solar Potential

We have analyzed the weather data for the last 10 years at your project location so that we can guarantee constant lighting every night of the year.

Average annual irradiation : .21kWh/m².d

Sizing takes account of the month with the lowest irradiation and the longest night.

Your Lighting Application

Residential Development Streets

Compliance with public lighting standards

Your project has been designed in compliance with:
- AASHTO standard

Belle Epoque

Inspired by “traditional” lighting, the BELLE EPOQUE lantern for solar streetlights aims to echo the past by keeping the shape of the lanterns of yesteryear. By turning this lantern upside down, we have brought it up to date, giving it a robust and solid appearance while keeping a refined and distinctive shape.

Photometric survey results

Zone	Average lighting level (fc)	Minimum	Uniformity (Avg/Min)	Spacing	Quantity
Larchmere	0.45	*0.1	4.50	Per site plan	5
Golf Course	0.57	*0.1	5.70		
TOTAL					5

Design Targets: 1 pole at each “X” on the client’s markup
Photometric results above are based on the 2 templates below.
*0.0 fc spots removed

Eco-friendly lighting

Choose Fonroche — and we will reduce your environmental footprint.

A standard streetlight consumes in average 80 W during 4200 h per year which represents 0.08x4200 x number of solar streetlight = X kWh of energy saving.

Once installed, solar lighting reduces
CO₂ emissions by 1kWh = 0.99 lbs CO₂
compared to a grid-connected installation. (<https://www.eia.gov/>)

Recycling our components

Long product service life and component recyclability are key aspects of Fonroche Lighting’s environmental commitments. Our solar streetlights are over 90% recyclable.

Unlike lead-acid batteries, **NiMH batteries** do not contain any toxic chemicals. They are 98% recyclable — the nickel is extracted and used to make various materials, mostly stainless steel.

The **solar panels** have an extremely long service life. Even after 25 years, they will still be producing at least 80% of their initial peak power. So they can continue to be used. Alternatively, about 96% of their component materials can be recycled to make new panels.

PHOTOMETRIC STUDY

**Note: these results are only valid if the Smartlight PV panel is at an azimuth angle of zero degrees and is completely free of shadow.*

***These results are subject to change due to technological or regulatory advances. This technical report is valid for 60 days from the date you receive it.*

SOLAR STREET LIGHTING

365 NIGHTS OF GUARANTEED LIGHTING

FONROCHE
lighting AMERICA

SOLAR IS THE NEW STANDARD

An aerial photograph of a modern roundabout in a desert environment. The roundabout is paved with dark asphalt and has a central circular area with a light-colored, textured surface. Several tall, slender solar streetlights are positioned around the roundabout and along the adjacent roads. The surrounding landscape is arid, with sparse green shrubs and a large saguaro cactus in the foreground. The sky is clear and blue.

SOLAR IS THE NEW STANDARD

SOLAR LIGHTING, THE NEW STANDARD

At Fonroche Lighting, we are motivated by our desire to revolutionize street lighting around the world. With over 20 years of experience, and as the most experienced actor in solar street lighting in the US, we are convinced that solar energy is the best alternative to conventional grid street lighting. Together, we will overcome challenges and break the mold to accelerate the transition to a world of sustainable, efficient, economical and responsible lighting.

SOLAR IS THE NEW STANDARD

WHY CHOOSE SOLAR LIGHTING?

FOR 365 NIGHTS OF...

Savings

Quick and easy installation,
no more electricity bills and
no maintenance for ten years

Safety

Anti-blackout security system
and vandalism protection

Autonomy

100% powered by solar energy,
our solutions do not require
connection to the grid

Intelligence

Optimized energy storage
and remote lighting control

Reliability

Resistant to even the most extreme
weather conditions, including high
winds and temperatures ranging
from -40 °F to +158 °F

Environmental Responsibility

With a carbon footprint 2 to 6 times
lower than grid lighting

Solar lighting, It's lower cost right from the initial investment!

Solar lighting eliminates the need for electrical grid repairs or construction costs thanks to its **cable-free, hook up free, and switchgear free operation**, representing significant savings. With solar lighting, savings are immediate: say goodbye to electricity bills for your outdoor lighting!

Consisting of a highly efficient photovoltaic panel, a smart storage system and the latest LED lighting, the Smartlight is the most powerful solar streetlight available on the market. The **Power 365 solar technology** developed by Fonroche Lighting guarantees a level of reliability and competitiveness that is unrivalled on the market thanks to our high-performance components and a project approach specific to each environment and approved by major transportation departments.

Photovoltaic Module

- Excellent efficiency in all climates
- Self-cleaning hydrophobic coating
- Lifespan of 30 years

LED Light

- Lighting performance exceeding 190 lm/W
- From 40 to 80 nominal Watts
- Lifespan of 20 years

Smart Storage and Management System

- Long lifespan (12 years, or 4000 cycles)
- Easy to recycle
- Durability in extreme temperatures (From -40°F to +158 °F)
- Programmable lighting profiles:

Pole and Mounting Arm

- Sized to official AASHTO Standards or as specified

CALIFORNIA - Road

UTAH - Trail

FLORIDA - Parking lot

SUCCESSFULLY ACHIEVE YOUR SOLAR LIGHTING PROJECT GOALS

THANKS TO OUR UNIQUE APPROACH

Each project is different. By taking into account the irradiance and weather conditions of each project, we can determine the right streetlight size and components to guarantee 365 nights of lighting.

4
Precise Installation
for an optimized budget

Keep control of your installations

Developed by our teams, **Fonroche Connect** is a simple and intuitive remote communication tool that allows you to monitor and control your solar lighting network remotely. Thanks to advanced technology, you can geolocate your streetlights, access real-time diagnostics, and optimize their performance.

With Fonroche Connect, enjoy 365 nights of uninterrupted lighting per year. **More than just a monitoring tool, it's your key to efficient, smart, and stress-free remote management of your lighting network.**

High-performance features to meet all daily needs and scenarios

Optimize

Extend the lifespan of installations with continuous remote management, available 24/7.

Eliminate

Reduce physical interventions and minimize the use of lifting platforms.

Update

Automatically upgrade software to ensure performance and longevity.

Monitor

Control and manage equipment remotely, without the need for on-site visits.

Control

Simultaneously manage one or multiple solar streetlights in real time.

Anticipate

Meet needs with effective predictive maintenance.

NEW ART

BRILLIANT & MINERAL

Heavily influenced by nature and minerals, the design of the NEW ART lantern for solar-powered streetlights is inspired by diamonds, with their solidity and special relationship with light. The facets on top of the lantern give it a raw, carved-out appearance, but also a technological edge.

This light, with its fluid, lightweight design, will add a high tech feel to your roads, whether in rural or urban environments. NEW ART is ideal for those who want to stand out from the crowd and make an impact.

Applications:
roads, streets, walkways, roundabouts, highways, etc.

BELLE EPOQUE

TRADITION & MODERNITY

Inspired by 'traditional' lighting, the BELLE EPOQUE lantern is a nod to days gone by. By turning this lantern upside down, we have brought it up to date, giving it a robust and solid appearance while retaining its refined, distinctive shape.

BELLE EPOQUE is a stylish street light that fits in perfectly with traditional urban and architectural spaces, such as town squares, plazas and roads. The shape of the mounting arm and the way in which the lantern is attached gives the impression that the light is suspended in mid-air, which lightens the overall structure.

/// **A collection of 4 color combinations**
specially designed by urban color designers. Ask for our exclusive color chart.

/// **Applications:**
roads, town squares, parks and trails, etc.

SPECIFICATIONS

Materials	Aluminium casting
LED modules	Interchangeable Modules - IP67 and IK09
Type of mounting arm	Oblong slip fit mounting arm: Available in a single or twin version
Lighting efficiency	> 190 lm/W
Color temperature	2700K- 3000K- 4000K

OPERA

ORNAMENTATION & CUSTOMIZATION

OPERA brings a modern twist to traditional lighting features such as decorative ornamentation and arches.

Ornate and customizable, OPERA can be easily adapted to suit the specific character of each location. The low position of the LED modules ensures optimized, high-performance lighting. Ideal for urban environments, the OPERA lantern will:

- give residential areas more personality
- add a touch of modernity to urban streets
- enhance parking lots

/// **A collection of 6 color combinations**

nowatt

architectural **solar** lighting

ENTIRELY DEDICATED TO **MARKING, DECORATIVE LIGHTING, AND ARCHITECTURAL ENHANCEMENT.**

Founded in 2014, Nowatt operates at the crossroads of solar innovation and architectural design, crafting 100% solar-powered products that meet the aesthetic and environmental demands of our era.

Acquired in 2023 by Fonroche Lighting—the global leader in solar lighting—Nowatt now benefits from extensive technical expertise and industrial know-how, enabling it to broaden its range and ambitions.

OKO BOLLARD

Refined wooden design inspired by nature

OKO bollards embody the perfect balance between sleek aesthetics, high-performance, and environmental responsibility. Designed for soft, long-lasting lighting, they feature a solid IROKO wood body sourced from sustainably managed forests, naturally rot-resistant and highly durable in outdoor conditions. With discreet solar panels and efficient LED optics, they allow inter-distances of up to 15 meters. Perfectly suited to parks, pathways, and recreational areas, OKO bollards blends into the landscape while meeting public lighting and accessibility standards.

BRUT BOLLARD

Elemental and robust

With its decarbonized concrete body, the BRUT bollard blends naturally into urban environments. Its dual function of lighting and beaconing makes it ideal for soft mobility areas and public spaces. Available in a range of sizes, textures and finishes, it combines performance, durability and aesthetic versatility.

FOLLOW BOLLARD

Elegance and performance

Designed as a true lighting feature, the Follow bollard showcases a style that is both understated and contemporary. Its vertical silhouette and geometric lines allow it to integrate seamlessly into a wide range of environments with elegance. Available in a selection of subtle, architecture-inspired tones, it combines visual finesse with technical performance for autonomous, long-lasting lighting.

CRYSTAL STUD

||| **simple, elegant and durable**

Thanks to its autonomous operation, the Crystal solar stud is the ideal solution for luminous marking and guidance across various applications, such as path marking and enhancing heritage or architectural sites. The glass body elegantly diffuses light while ensuring excellent solar energy capture. With up to 480 hours of autonomy, the Crystal stud delivers reliable lighting throughout the year, even during winter. The Nowatt app provides extensive customization options, allowing users to create 100% tailor-made scenarios with dynamic light animations and a palette of up to one million colors.

MEMORANDUM

TO: Chair Litwin and Supervisors
CrossCreek Community Development District

FROM: Andrew H. Cohen, Esq.

DATE: September 24, 2025

SUBJECT: Tree Trimming and Removal

Due to last year's storms as well as concerns in general, the CrossCreek Community Development ("CDD" or "District") had received multiple inquiries regarding the authority and responsibility for fallen or damaged trees. The purpose of this memorandum is to address some of those issues within the CrossCreek CDD community.

I am a homeowner in CrossCreek CDD and a tree from CDD property fell into my backyard. Who is responsible for cleaning it up?

You, as the private property homeowner, are responsible for the portion of a fallen tree located on your property. You are legally entitled to cut back or remove that portion of the tree up to your property line. The District is then responsible for the portion of the tree located on District property, which could involve further cutting back or removing the remaining portion of the tree up to the property line. *As a property owner,*

Lakewood Ranch
6853 Energy Court
Lakewood Ranch, Florida 34240

Venice
236 Pedro Street
Venice, Florida 34285

you are always entitled to trim the “vertical plane” of tree limbs intruding onto your property either from a CDD tree or tree from your neighbor as long as you do not go past your property line or kill the subject tree.

Why isn't the District responsible for moving the entire tree that fell from the adjoining District property?

As long as the tree was healthy and the District was not aware of any issues that would create a hazardous situation prior to the storms or other cause of falling, the responsibility for removing the tree from private property remains with the homeowner.

What if the tree damaged my fence, lanai or pool cage?

The District, as the adjoining landowner, is not responsible for any damages caused by a fallen tree on your property. You should notify your insurance carrier for coverage information regarding any damages. As a note, this is also generally true if your tree fell on your neighbor's house. There are, of course, some exceptions to that, but generally the homeowner is responsible for damages that occur on their property.

What should I be aware of before removing a fallen tree from my property?

Before you remove a tree, it is important to consider any HOA or CDD restrictions along with possible county permitting regulations. Another consideration is making sure any removal does not further damage the tree or vegetation to avoid any liability. (This is not often the case with a fallen tree, but it should be discussed when talking to the District or a tree removal company.)

Why is the District not removing dead trees that fell over from previous storms or other events in the preservation area behind my house?

The District is subject to certain restrictions and regulations that are dependent on the particular property and situation. In this situation, the District might be required to leave the tree as it fell as natural vegetation to decompose within the preserve area.

What should I do first if I have trees or other vegetation on my property?

Any fallen or damaged trees should be reported to the District staff so the property can be reviewed on a case-by-case basis and further actions discussed prior to trimming or removal. There may be restrictions, including easements, regulations and permitting, that will be taken into consideration in taking appropriate action.

GENERAL NOTES

This Preliminary Site Plan is based on measurements that were provided in the initial planning phase. All dimensions must be verified prior to the submission of a purchase order. Playcraft Systems will not be held responsible for any discrepancies between actual dimensions and dimensions submitted in the planning phase.

The Minimum Use Zone for a play structure is based on the product design at the time of proposal. Components and structure designs may be subject to change which may affect dimensions. Therefore, before preparing the site, we strongly recommend obtaining final drawings from the factory (available after the order is placed and included in the Assembly Manual).

WARNING: Accessible safety surfacing material is required beneath and around this equipment that has a critical height value (Fall Height) appropriate for the highest accessible part of this equipment. Refer to the CPSC'S Handbook For Public Playground Safety, Section 4: Surfacing.

CROSS CREEK COMMUNITY DEVELOPMENT DISTRICT

Discussion of Possible Dog Park

CROSS CREEK COMMUNITY DEVELOPMENT DISTRICT

Ratification of the FY 26 Egis Insurance
Package

Egis Insurance & Risk Advisors

Is pleased to provide a

Proposal of Insurance Coverage for:

Cross Creek Community Development District

Please review the proposed insurance coverage terms and conditions carefully.

Written request to bind must be received prior to the effective date of coverage.

The brief description of coverage contained in this document is being provided as an accommodation only and is not intended to cover or describe all Coverage Agreement terms. For more complete and detailed information relating to the scope and limits of coverage, please refer directly to the Coverage Agreement documents. Specimen forms are available upon request.

About FIA

Florida Insurance Alliance (“FIA”), authorized and regulated by the Florida Office of Insurance Regulation, is a non-assessable, governmental insurance Trust. FIA was created in September 2011 at a time when a large number of Special Taxing Districts were having difficulty obtaining insurance.

Primarily, this was due to financial stability concerns and a perception that these small to mid-sized Districts had a disproportionate exposure to claims. Even districts that were claims free for years could not obtain coverage. FIA was created to fill this void with the goal of providing affordable insurance coverage to Special Taxing Districts. Today, FIA proudly serves and protects over 1,000 public entity members.

Competitive Advantage

FIA allows qualifying Public Entities to achieve broad, tailored coverages with a cost-effective insurance program. Additional program benefits include:

- Insure-to-value property limits with no coinsurance penalties
- First dollar coverage for “alleged” public official ethics violations
- Proactive in-house claims management and loss control department
- Risk management services including on-site loss control, property schedule verification and contract reviews
- Complimentary Property Appraisals
- Online Risk Management Education & Training portal
- Online HR & Benefits Support portal
- HR Hotline
- Safety Partners Matching Grant Program

How are FIA Members Protected?

FIA employs a conservative approach to risk management. Liability risk retained by FIA is fully funded prior to the policy term through member premiums. The remainder of the risk is transferred to reinsurers. FIA’s primary reinsurers, Lloyds of London and Hudson Insurance Company, both have AM Best A XV (Excellent) ratings and surplus of \$2Billion or greater.

In the event of catastrophic property losses due to a Named Storm (i.e., hurricane), the program bears no risk as all losses are passed on to the reinsurers.

What Are Members Responsible For?

As a non-assessable Trust, our members are only responsible for two items:

- Annual Premiums
- Individual Member Deductibles

FIA Bylaws prohibit any assessments or other fees.

Additional information regarding FIA and our member services can be found at www.fia360.org.

PARTICIPATION AGREEMENT
Application for Membership in the Florida Insurance Alliance

The undersigned local governmental entity, certifying itself to be a public agency of the State of Florida as defined in Section 163.01, Florida Statutes, hereby formally makes application with the Florida Insurance Alliance ("FIA") for continuing liability and/or casualty coverage through membership in FIA, to become effective 12:01 a.m., 10/01/2025, and if accepted by the FIA's duly authorized representative, does hereby agree as follows:

- (a) That, by this reference, the terms and provisions of the Interlocal Agreement creating the Florida Insurance Alliance are hereby adopted, approved and ratified by the undersigned local governmental entity. The undersigned local governmental entity certifies that it has received a copy of the aforementioned Interlocal Agreement and further agrees to be bound by the provisions and obligations of the Interlocal Agreement as provided therein;
- (b) To pay all premiums on or before the date the same shall become due and, in the event Applicant fails to do so, to pay any reasonable late penalties and charges arising therefrom, and all costs of collection thereof, including reasonable attorneys' fees;
- (c) To abide by the rules and regulations adopted by the Board of Directors;
- (d) That should either the Applicant or the Fund desire to cancel coverage; it will give not less than thirty (30) days prior written notice of cancellation;
- (e) That all information contained in the underwriting application provided to FIA as a condition precedent to participation in FIA is true, correct and accurate in all respects.

PROPERTY VALUATION AUTHORIZATION

**Cross Creek Community Development District
c/o PFM Group Consulting, LLC
3501 Quadrangle Boulevard, Suite 270
Orlando, FL 32817**

QUOTATIONS TERMS & CONDITIONS

1. Please review the quote carefully for coverage terms, conditions, and limits.
2. The coverage is subject to 25% minimum earned premium as of the first day of the "Coverage Period".
3. Total premium is late if not paid in full within 30 days of inception, unless otherwise stated.
4. Property designated as being within Flood Zone A or V (and any prefixes or suffixes thereof) by the Federal Emergency Management Agency (FEMA), or within a 100 Year Flood Plain as designated by the United States Army Corps of Engineers, will have a Special Flood Deductible equal to all flood insurance available for such property under the National Flood Insurance Program, whether purchased or not or 5% of the Total Insured Value at each affected location whichever the greater.
5. The Florida Insurance Alliance is a shared limit. The limits purchased are a per occurrence limit and in the event an occurrence exhaust the limit purchased by the Alliance on behalf of the members, payment to you for a covered loss will be reduced pro-rata based on the amounts of covered loss by all members affected by the occurrence. Property designated as being within.
6. Coverage is not bound until confirmation is received from a representative of Egis Insurance & Risk Advisors.

I give my authorization to bind coverage for property through the Florida Insurance Alliance as per limits and terms listed below.
