Ratification of Advanced Aquatics Services, Inc.
Agreement

**AGREEMENT BY AND BETWEEN
CROSSCREEK COMMUNITY DEVELOPMENT DISTRICT
AND ADVANCED AQUATIC SERVICES, INC.**

THIS AGREEMENT (“Agreement”) is made and entered into this 1st day of December, 2023, by and between:

CrossCreek Community Development District, a local unit of special purpose government established pursuant to Chapter 190, Florida Statutes, being situated in Manatee County, Florida, and having offices at c/o PFM Group Consulting, LLC, 3501 Quadrangle Boulevard, Suite 270, Orlando, FL 32817 (the “District”); and

Advanced Aquatic Services, Inc., a Florida Profit Corporation (the “Contractor”), whose mailing address is 292 South Military Trail, Deerfield Beach, FL 33442 (the “Contractor”).

RECITALS

WHEREAS, the District is a local unit of special-purpose government, pursuant to and governed by Chapter 190, Florida Statutes, established for the purpose of financing, funding, planning, establishing, acquiring, constructing, or reconstructing, enlarging, or extending, equipping, operating, and maintaining systems and facilities for certain infrastructure improvements; and

WHEREAS, the District owns and has assumed responsibility for the managing and maintaining of certain waterways within the boundaries of the District; and

WHEREAS, the District desires to enter into an agreement with an independent contractor to provide specific services for these areas within the District; and

WHEREAS, the Contractor is a provider of such services and desires to contract with the District to do so in accordance with the terms and specifications in this Agreement; and

WHEREAS, the District and Contractor (collectively, “the Parties”) warrant and agree that they have all right, power, and authority to enter into and be bound by this Agreement.

NOW THEREFORE, in consideration of the recitals, agreements, and mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the Parties, the Parties agree as follows:

1. INCORPORATION OF RECITALS. The recitals so stated are true and correct and by this reference are incorporated into and form a material part of this Agreement.

2. CONTRACTOR’S OBLIGATION.

A. **General Requirements.** Contractor shall, upon execution of this Agreement by both parties, manage twelve (12) ponds with a total shoreline of approximately 14,377 linear feet (as more specifically referenced in the Waterway Chart and map attached hereto as **Exhibit “A.”** On an annual basis, Contractor shall provide a minimum of eighteen (18)

Statutes, or other statute. Specifically, any covenant by the District to hold the Contractor harmless or similar provision is with the express understanding that such provision does not waive the sovereign immunity protections of the District and is only to the extent allowable by law. Nothing in this Agreement (including any exhibit) shall inure to the benefit of any third party for the purpose of allowing any claim which would otherwise be barred under the Doctrine of Sovereign Immunity or by operation of law.

10. NEGOTIATION AT ARM'S LENGTH. This Agreement has been negotiated fully between the parties as an arm's length transaction. The parties participated fully in the preparation of this Agreement and received the advice of counsel. In the case of a dispute concerning the interpretation of any provision of this Agreement, all parties are deemed to have drafted, chosen and selected the language and the doubtful language will not be interpreted or construed against any party.

11. ENFORCEMENT. A default by any party under this Agreement shall entitle the other parties to all remedies available at law or in equity which shall include, but not be limited to, the right of damages, injunctive relief, and specific performance.

12. TERMINATION. The District has the right to terminate this Agreement immediately for cause. Notwithstanding any other notice provisions referenced herein, the District further has the right to terminate this Agreement without cause and in its sole and absolute discretion and with the provision of thirty (30) days written notice. The Contractor has the right to terminate this Agreement for non-payment of non-disputed amounts more than sixty (60) days past due and further has the right to terminate this Agreement without cause and in its sole and absolute discretion and with the provision of ninety (90) days written notice to the District.

13. INDEPENDENT CONTRACTOR. The Parties agree that Contractor is and shall remain at all times an independent contractor and Contractor, its agents, and employees, shall not in any proceeding or in any other way claim or be considered an employee of the District.

14. ENTIRE AGREEMENT. This instrument shall constitute the final and complete expression of the agreement between the parties relating to the subject matter of this Agreement.

15. AMENDMENT. Amendments to and waivers of any provisions contained in this Agreement may be made only by an instrument in writing which is executed by all of the parties hereto.

16. AUTHORITY TO CONTRACT. The execution of this Agreement has been duly authorized by the appropriate body or official of all parties hereto, each party has complied with all the requirements of law and each party has full power and authority to comply with the terms and provisions of this instrument.

17. NOTICES. All notices, requests, consents, and other communications hereunder ("Notices") shall be in writing and shall be delivered, mailed by overnight delivery or First-Class Mail, postage prepaid, and e-mailed to the parties, as follows:

Alfresco ALXE Gas Grill Review

The Skinny:

- Restaurant inspired, top-notch quality
- Clean, polished look with LED lights
- Incredible performance and versatility
- Made in the USA

Things We Love:

The **Alfresco ALXE grill** is designed for the entertainer or culinarian who appreciates quality, versatility, performance and style.

Featuring true commercial-quality construction and performance, this restaurant-inspired grill is extremely versatile and made to cook. It all starts with their high 18-SR stainless steel high performance Accufire™ main burners, which are fully utilized due to the airtight construction of the grill's firebox, and the optional restaurant-quality infrared Sear Zone™ that sears around 1600°F.

Above the stainless steel burners sit the ceramic briquettes, which have concave backs for very even heat distribution, whether you're on low heat or high. The ceramic briquette trays also lock into place, and they can be flipped over for easy cleaning. For bonus flavor, take advantage of the Signature Taste™ integrated smoker system with dedicated burner and drawer for wood chunks. The smoker box works well with aromatics or liquids and rests under the ceramic briquettes, allowing the smoke to engulf your food for maximum flavor enhancement.

Standing further out from the competition is the motor of the Integrated Mega-Drive™ rotisserie system with infrared burner — on the Alfresco ALXE, it's completely built-in and hidden from sight. The chain-driven rotisserie can smoothly turn as much as 120 lbs. of prime rib, whole chickens, ribs, and much more.

With its polished stainless steel and amber LED lights above the knobs (that stay cool to the touch because of the innovative air-cooled front control panel), this American-made grill has a stand-out stylish appearance. From the spring lid assist with a 20-year high-heat lubricant to the versatile accessory options, this grill has everything you need for truly luxurious cooking.

You can be confident in Alfresco, which offers one of the best warranties in the industry, offering a lifetime warranty on the grills stainless steel components and burners, along with the Freedom Warranty which covers all parts and repairs for a full 2 years.

Feedback

Things To Consider:

While Alfresco's infrared Sear Zone™ produces an extreme amount of heat, it doesn't offer much of a low turn down when cooking food that requires a low temperature.

increased possibility of a flare up. when food drips through grill

Napoleon Prestige Pro Review

The Skinny:

- Well-known brand name
- Fully loaded with great features
- Proudly made in North America
- Great Warranty

Things We Love:

The **Napoleon Prestige Pro** is a feature packed gas grill with innovative accessories and integrated functionality. The Prestige Pro series comes with an infrared rear burner, rotisserie, and “sizzle zone” infrared burner. **Freestanding Prestige Pro** models also include an ice bucket with integrated cutting board. You can also add the optional **charcoal tray** for even more ways to cook. The grill comes with LED Spectrum Night Light control knobs with color customizable lights. The lights have a safety glow feature that make them glow red when a burner is in use. The Prestige Pro series also has interior grill lighting for night time grilling and lighting in the storage area under the grill. I also really like Napoleon’s doubled lined “lift-ease” lid, which opens easily and helps hold in heat for optimal heat retention. The lid is hinged near the middle and, when open, adds hardly any depth to the back of the grill. This allows for easy placement in a variety of spaces. The **Pro 825** has two “sizzle zone” burners in the second grill area, and a two stage power burners on the side shelf.

Feedback

One thing that really sets the Prestige Pro apart is its storage features. The Pro boasts soft close storage doors, built-in shelving in the cabinet, condiment racks, tool hooks, towel bars, and even a bottle opener with cap catcher.

Napoleon Prestige Pro grills have stainless steel tube burners that are lit by a "Jetfire" electronic ignition. The Pro series has stainless steel grates with a patented wave design that creates unique sear marks. To spread heat evenly, Napoleon has stainless steel sear plates. The plates also protect the burners and help reduce flare-ups.

The Prestige Pro grills are also available as **built-in models**, a perfect fit for any outdoor kitchen.

The warranty on the Prestige Pro series is a standout in its class, having a lifetime warranty on the exterior housing, cooking grids, and stainless steel cooking box. Napoleon also boasts a 10 year + 5 warranty on their burners and flame tamers that provides replacement parts at a 50% of normal cost for 5 years after the 10 year warranty expires.

Thing To Consider:

While this grill is built tough, and backed by a strong warranty, Napoleon Prestige Pro grills are not "all stainless steel", which is what many customers are shopping for nowadays. Along with the stainless steel components on the grill, you will also find cast aluminum and porcelain enameled steel components too, such as cart legs, back panels, etc.

- 1. Ownership: The purchaser warrants that he/she owns the land upon which the work is to be performed.**
- 2. Material Selection: The owner is solely responsible for the material and color selection of all products utilized by the Contractor and agrees to ensure that all such selections meet or exceed any neighborhood, city, homeowner's association, or any other requirements. Owner shall indemnify and hold Contractor harmless from any action brought by any person, group, or entity concerning the type, color, or other characteristic of the material selected by Owner. Commercial Pools are limited to their material selections based on County Health Department Codes. The contractor will advise which materials are acceptable to current codes. It is understood that THERE ARE NO OTHER UNDERSTANDINGS, PROMISES, OR AGREEMENTS THAT EXIST THAT ARE NOT REPRESENTED IN THIS AGREEMENT. NO VERBAL AGREEMENTS ARE VALID unless put forth in writing herein.**

3. **Work Site:** The owner is responsible for work being done within property lines in conformity with local zoning laws, the pool site shall be clear of easements and set back restrictions and the Contractor shall be held harmless from liability to the Owner or a third person from such work beyond said property lines. Owner shall guarantee that Contractor shall have reasonable access to the contract property and that property shall not be encumbered or sold while under contract. The contractor is not responsible for dust, at a construction site, dust will occur. For non-deck projects, we recommend covering (which may deter, but not eliminate dust altogether) or removing furniture if desired. For deck projects, furniture will need to be removed before the start of the project, by the homeowner. The homeowners will be responsible for damaging personal items such as lawn furniture or portable plants left etc. in the construction areas. Moving of furniture, plants, etc. from decks and construction areas will be billed separately. We recommend homeowners clean windows, doors, etc. after the project is complete. Noise may occur during the project.
4. **Work Site Clean-up:** The contractor shall provide clean-up within the aftercare for pool projects. Deck-only projects may need multiple visits after the project. Clean-up consists of removing all material brought on-site for the project. There may be a rinse or pressure wash of the deck for deck jobs, and a rinse of the deck for pool-only jobs may be done within the aftercare. The first few visits of aftercare are normally for chemical balancing only. Dump & material disposal fees will be billed at cost (if applicable) to the homeowner and are not included in the price.
5. **Acknowledgment of Work:** Contractor shall not be responsible for damage to any part of the contract property, pool, pool cage, or dwelling resulting from natural causes, weather, or an act of God, including earthquakes, hurricanes, ground swells, landslides or any natural or accidental cause from rain, hail, storms or floods. The contractor shall not be responsible for damages or delay caused by other persons (including other Subcontractors) working on contract property. The contractor is also not responsible for grass damage during the project from material placement during the project or work being done. No sod replacement, reseeding, or replacement of shrubs and landscaping material shall be provided by the contractor unless specifically spelled out in this agreement. The homeowner acknowledges that the contractor/crew could be on the property for approximately 4-6 weeks if no unforeseen circumstances occur.
6. **Utilities:** The owner ensures necessary electricity, water, and other utilities during remodeling and to operate the pool, The Purchaser agrees to furnish water, and electrical power, at his/her expense, including the initial filling of the pool, needed to complete the terms of this contract and that they accept responsibility for any damage to the pool or any part thereof, as result of any construction which is performed on or around the contract property by anyone other than Contractor. The Owner warrants that there will be no underground obstruction, such as electric lines, or any other such item which would require removal or relocation in order to complete the proposed contract work. In such event, the Owner agrees to pay all costs incurred by the Contractor for removal or relocation of such obstructions, plus 20% of such costs, within five (5) days after completion of any work necessitated under the terms of this contract. The contractor may need assistance from the homeowner regarding electrical issues to ensure the project is not delayed.
7. **Stoppage:** The contractor reserves the right to stop work at any time until past due payments according to the terms of the contract are brought up to date. The contractor shall not be responsible or liable for any damages caused by the Owner's delay. The owner agrees any such work stoppage shall not be grounds for breach of contract. Payments are due at the start of each applicable phase of work that is being performed and the Owner agrees to pay 1.5% interest per month from the date payment is due until payment is made if past due. The owner is responsible for any legal interests and reasonable attorney's fees if necessary. In the event the Owner fails to perform according to the terms of the contract or prevent the performance of the contract by the Contractor, the Owner shall be liable to the Contractor for all money actually expended by the Contractor in reliance upon this agreement. If the agreement is terminated by the Owner prior to the start of the work according to the contract, the Contractor shall retain any and all of the deposit money paid as liquidated damages. Payments must be made on schedule or work will stop until such payments are made. Late payments will void any free items or credits included in this contract. Purchaser agrees to pay all costs incurred because of non-payment or other breach of contract by the Purchaser including interest and fees for litigation. Work will be re-scheduled upon payment and

existing completion dates will be adjusted accordingly. Should the customer cancel this agreement after the commencement of work, the contractor reserves the right to a 30% cancellation fee plus payment for stages of work that have been completed

8. **Work Completed:** Work under this contract is deemed complete when the contractor's materials are installed. Buyer agrees that there are no warranties in effect and final inspections will not be called in until the contract is paid in full and that buyer will be responsible and liable for any damages that may occur for not adhering to the terms and conditions of this contract or delays. The contractor shall not be liable under any circumstances for incidental or consequential damages, and no claim for damages shall be greater in amount than the price of this contract. It is common for minor punchout items and final clean-up to extend beyond the time a final draw is due. A maximum of a \$200 holdback will be allowed without penalty for late payment. No free or specially priced items will be installed unless all invoices have been paid in full and on time. Draws are due the morning work is to be completed for designated stages. If full payment is not onsite the morning of completion, work shall not be completed and a \$500 trip charge will be billed to the homeowner and future draws will be paid in advance. This or any late payment will void any credits, special discounts, or free items included in this contract.
9. **Equipment Ownership:** Title and ownership of equipment and accessories described on the contract whether affixed to contract property shall remain the property of the Contractor until the total payment, according to the terms of the agreement, has been paid in full. The Owner agrees that if the amount is not paid in accordance with the terms of the agreement, the Contractor may, without notice, enter the premises and repossess said equipment and accessories, and that said entry shall not constitute a breach of the agreement. The contractor will apply the reasonable value of said equipment and accessories against the unpaid balance. If repossession is affected through legal process, the Owner will have such rights and liabilities as may be accorded under the State laws of Florida.
10. **Equipment:** The contractor shall not be held responsible for preexisting conditions not covered in this agreement for correction, including, but not limited to inadequate filtration equipment, underwater lighting, water leaks, and cleaning systems heads. If performing a skimmer replacement, the Skimmer will not be filled in until confirmed no leaks are present. The contractor will fill in the skimmer prior to the completion of the project.
11. **Product Changes:** All changes or additions to this contract shall be authorized by a signed addendum executed by the Purchaser and the Contractor. Charges for such items shall become due when billed and paid for before the existing construction schedule continues Any product Changes to this agreement can be made at the discretion of Aqua Doc Pool Clinic. Change forms are subject to a \$100 fee.
12. **After-Care:** Before beginning aftercare, the Homeowner is responsible for watching the filling of the pool and shutting the hose off once the pool has reached normal operating level. The contractor will perform after-care until the pool chemicals are balanced depending on the resurfacing product unless otherwise stipulated. After-care is a free chemical service only and is not to be considered a pool cleaning service. The contractor will supply the preferred water chemistry condition document upon final payment for the Owner and/or Owner's pool technician's reference. Note: Commercial Properties that are serviced by Aqua Doc Pool Clinic will continue to have regularly scheduled tech service along with the after-care service.
13. **Warranty:** Cementitious pool interior finishes are semi-permeable membranes that allow small amounts of moisture to permeate through and into the substrate, over time. The finish will not debond or delaminate provided that the pool remains filled with water, is structurally sound, and the water chemistry after the start-up and after-care is properly maintained in accordance with Warranty guidelines. Water chemistry consists of chlorine levels, total alkalinity, pH, hardness (calcium & magnesium), stabilizer levers, copper, and total dissolved solids (TDS). All equipment and accessories furnished by the Contractor will remain the property of the Contractor and no warranty will be honored until all invoiced payments have been made. Failure to make such payments as invoiced will be considered a breach of contract and under this breach of contract, the Contractor has the right to remove the furnished pool equipment and/or accessories even if they are attached to real estate. Outstanding balances on items completed beyond 30 days shall permanently void all warranties & guarantees. Purchaser's failure to make full payment to contractor according to this contract and work orders shall void this warranty.

14. **Finishes:** Pool finishes are composed of materials that may have inherent shading and/or color variation that is normal and should not be construed as a defect. Environmental factors like humidity and temperature during the installation process, and normal color variation within a surface coating, called mottling, may appear. This condition is beyond the Contractor's control. Discoloration or shade variation is not considered a defect due to aggregate finishes having variations in the surface density, or variations in the concentration of aggregate across the finished surface. The owner agrees that the pool interior finish is not guaranteed for evenness of color and may not be the exact shade anticipated. Shade and color may vary and fade over time. The owner understands that hairline cracks may be noticeable and may be quite pronounced with color finishes. Staining of new surfaces from old, rusted lights, ladders, returns, or other items is the responsibility of the homeowner. Imperfections, such as Marcite and deck discoloration, hairline cracks in pool, and tile, and expansion cracks in decks and tile, which are inherent to this type of construction are not warranted. Etching, pitting, and scaling of the interior pool finish are caused by improper water chemistry and will not be warranted. Interior finishes are warranted only in areas where the material touches. Other areas such as plumbing, skimmers, main drains, and light niches, unless contracted separately, are not warranted.
